Message

I am very disappointed in your support for the Atlantic gas pipeline. We need to move away from fossil fuels, fracked gas, etc. North Carolina does not need this fracked gas pipeline going through our state and causing much environmental damage. I will do whatever I can to oppose the construction of this pipeline, supporting groups working against it--filing lawsuits, bringing media attention to the project, etc. Moreover, I will support candidates who are opposed to this pipeline. This pipeline is not in the interest of the ordinary people of North Carolina, but rather represents the interests of major corporations such as Duke Energy who want to keep pushing fossil fuels.
